We train on different kinds of Forklifts, Aerial Lifts (Boom and Scissor) and Loaders.

Our training and certification is regulatory compliant with the most current standards and regulations. Courses are provided either at our locations or on workplaces all around the nation. Our various safety courses help to guarantee workplaces that are safe and effective.

### **Reasons Why You need to Choose Train the Trainer**

The best option for training workers is sometimes engaging the services of a third party organization to carry out the training and certification. There are nevertheless lots of good reasons to send some of your employees to Train the Trainer programs. Your company could benefit by making the most out of your investment. Teaching an existing staff individual to train other employees is cheaper compared to engaging the services of somebody new. Companies should avoid expecting individuals to take on trainer duties on top of their current duties. The designated trainer needs to be relieved of some of their duties in order to avoid trainer burnout.

Developing training resources internally helps to empower your company, increase its resources and encourage staff to be self-reliant. With an in-house trainer, other staff members may feel more comfortable learning new skills than they would with somebody new. By training internally, new employees can be trained quickly and brought up to speed on the machinery in the event of staff turnover.
